

Alex Foo

Senior Cloud & AI Customer Engineering Leader

Mobile: +65-9022-4775 | Email: alexfoo@outlook.sg | Nationality: Singaporean

EXECUTIVE PROFILE

Senior Cloud and AI Customer Engineering leader with 25+ years of experience driving enterprise transformation across hyperscaler ecosystems in APAC. Proven track record building and scaling high-performance technical organizations, accelerating AI and data platform adoption, and influencing C-level stakeholders on strategic modernization initiatives.

Deep expertise in cloud-native architectures, enterprise data platforms, and production-scale AI and GenAI adoption. Experienced in translating complex AI capabilities into measurable business outcomes across financial services, public sector, telecommunications, and digital-native organizations.

Recognized for combining executive engagement, technical depth, and commercial alignment to drive adoption, revenue growth, and long-term cloud consumption.

CORE CAPABILITIES

- Customer Engineering & Solutions Leadership
- Enterprise AI & GenAI Adoption (RAG, NLP, MLOps, Governance)
- Cloud-Native Data & Analytics Architectures (AWS, Google Cloud)
- Executive Architecture Advisory & CxO Engagement
- Multi-Cloud Modernization Strategy
- Partner Ecosystem & Co-Sell Enablement
- AI Use Case Incubation & Productionization Strategy
- Technical Team Leadership & Organizational Build-Out

ENTERPRISE AI & GENAI HIGHLIGHTS

- Designed enterprise-ready RAG-style architectures integrating secure data pipelines and governance controls.
- Built and evaluated NLP and predictive ML solutions aligned with modern MLOps lifecycle practices.
- Explored production considerations including model governance, privacy, scalability, and responsible AI frameworks.
- Strengthened multi-cloud AI architecture proficiency across AWS and Google Cloud environments.

PROFESSIONAL EXPERIENCE

Kyndryl Holdings, Inc

Associate Director – Technical Solutioning | Sep 2025 – Present

- Lead end-to-end technical solutioning for enterprise pursuits exceeding USD 10M across cloud, data, AI, security, and digital transformation domains.
- Architect scalable, business-aligned solutions leveraging hyperscaler platforms with emphasis on AI-driven modernization and analytics transformation.
- Facilitate executive-level architecture workshops translating AI and cloud strategies into measurable ROI, consumption growth, and operational resilience.
- Drive cross-functional collaboration across sales, alliances, and delivery to ensure scalable, production-ready cloud and AI adoption.
- Achieved Forward Deployed Engineer Certification for Kyndryl Agentic AI Framework
- Obtained Develop AI Solutions in Azure certification

Advanced Data Science & AI

Professional Development (NTU, Deeplearning.AI, AWS, Google, Azure) | Oct 2024 – Aug 2025

- Purpose-driven development focused on deepening hands-on expertise in enterprise data, AI, and cloud-native analytics platforms to complement leadership experience.
- Designed and implemented end-to-end data pipelines supporting analytics and ML workloads using Python and cloud-native data services
- Built and evaluated ML models across NLP, time-series forecasting, and predictive analytics, aligned to modern ML lifecycle and MLOps practices

- Developed GenAI and NLP solutions on proprietary datasets, focusing on production considerations such as governance, security, scalability, and ethics
 - Explored enterprise GenAI patterns including Retrieval-Augmented Generative architectures (RAG) and responsible AI frameworks
 - Strengthened cloud data engineering proficiency across AWS and Google Cloud environments
 - Obtained various AI /ML certifications: GenAI, Multimodal LLMs, Agent Protocols, AI Python Coding (DeepLearning.AI)
 - Obtained Advanced Professional Certification in Data Science and Artificial Intelligence by Nanyang Technology University (NTU)
 - Achieved 2 Advanced Professional Certificate for Data Science and AI Excellence Awards -Colloration Catalyst and Curious & Self-directed Learner (NTU)
-

Cloudflare Inc

Head of Partner Solutions Engineering, APJC | 2023 – Oct 2024

- Built APJC Partner Solutions Engineering organization from inception, doubling team capacity and establishing a high-performance technical culture.
 - Designed and operationalized a Partner Technical Development Framework reducing churn by 70% and increasing partner-led opportunities by 597%.
 - Drove 20% YoY regional revenue growth with partners contributing over 50% of total APJC revenue through structured technical engagement models.
 - Led executive customer engagements enabling AI-driven analytics workloads, secure data architectures, and GenAI use cases at enterprise scale.
 - Conducted architecture workshops and proof-of-value programs across financial services and public sector organizations to accelerate AI and cloud adoption.
 - Mentored managers and senior engineers, developing future technical leaders across the region.
-

Amazon Web Services (AWS)

Portfolio Manager, APJ | 2021 – 2023

- Established APJ Portfolio Management function for industry cloud solutions, driving 50% adoption of a USD 120M bookings target.
 - Standardized repeatable AI and data-driven offerings, increasing professional services adoption from 25% to 50% within two quarters.
 - Incubated AI-powered solutions including NLP chatbots, sentiment analytics, GenAI-enabled contact center automation, and digital identity (eKYC) platforms.
 - Partnered with sales and customer engineering teams to align AI solutions with measurable business value, achieving >90% CSAT and renewal rates.
 - Led regional knowledge and asset strategy improving consultant efficiency by 30%.
-

Cisco Systems

Head of Services Solutions, ASEAN | 2017 – 2021

- Led regional services solutions business across cloud, automation, AI operations, and security; grew bookings from USD 18M to USD 30M (60% growth).
 - Improved funnel conversion rates to over 70% for strategic enterprise deals and increased renewal rates from 75% to 95%.
 - Served as trusted technical advisor to C-level stakeholders, securing multi-year transformation programs across public and private sectors.
 - Launched outcome-based cloud and AI solution programs scaling across ASEAN markets.
-

Cisco Systems

Data Center & Cloud Practice Lead / Solutions Architect, APJC | 2012 – 2017

- Led regional hybrid cloud and SaaS architecture initiatives supporting USD 50M+ pipeline.
 - Built and enabled a 45+ member SME delivery organization supporting cloud-native and software-defined infrastructure solutions.
 - Delivered early hybrid cloud deployments influencing global productization strategy.
-

Earlier Career Experience

HP | Neptune Orient Lines (NOL) | Technology Start-up | 2001 – 2011

- Held progressive leadership and senior architecture roles spanning global infrastructure modernization, managed services, and enterprise transformation programs across financial services, logistics, and telecommunications sectors.
- Led large-scale infrastructure and data center transformation initiatives across APAC and global markets.

- Delivered multi-million-dollar enterprise modernization programs including cloud enablement, platform consolidation, and service automation.
 - Built early cloud and managed services capabilities supporting global operations environments.
 - Partnered with enterprise stakeholders to align technology modernization with operational resilience and cost optimization objectives.
-

CERTIFICATIONS & CONTINUOUS LEARNING

- NTU Advanced Professional Certification in Data Science & Artificial Intelligence
 - DeepLearning.AI: GenAI, Multimodal LLMs, Agent Protocols, AI Python Coding
 - Forward Deployed Engineer Certification for Kyndryl Agentic AI Framework
 - Develop AI Solutions in Azure certification
 - AWS Certified AI Practitioner (In Progress)
 - Azure AI Engineer Associate (In Progress)
 - TOGAF | PMP | ITIL | AgilePM
 - AWS Certified Solutions Architect – Associate
 - AWS Certified Cloud Practitioner
 - Google Cloud Platform Foundations & Core Infrastructure
-

EDUCATION

- **Bachelor of Information Technology**
Queensland University of Technology
-

HONOURS & RECOGNITION

- NTU Advanced Professional Certificate for Data Science and AI Excellence Awards -Colloration Catalyst and Curious
- NTU Advanced Professional Certificate for Data Science and AI Excellence Awards - Self-directed Learner
- Cisco Leadership Pipeline Program – Top 5%
- Cisco Innovation & Customer Focus Awards
- Guest Speaker, IDC ASEAN
